Define Problem Statements (Customer Problem Statement Template):

Create a problem statement from the customer's point of view, focusing on the challenge the solution should address.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	Students / aspiring writers / content creators	turn a short story idea into an engaging comic	creating panels, dialogue and visuals manually takes time	they may not have illustration or comic-design skills	frustrated and unable to quickly visualize their ideas

Core problem: Users need a simple way to transform a short story prompt into a coherent multi-panel comic without manually creating every story element, dialogue and visual.
